

W9JP

AMA CHEWER

MONTHLY PAPER OF THE INDIANAPOLIS RADIO CLUB, INC.

Dec. 5, 1940.
BRING IN A NEW MEMBER

PAST PRESENTATIONS

Art Schultz, W9NNX, put on a fine presentation of Mechanical refrigeration the 8th of Nov. Many fellows expressed their surprise at the inner workings of a refrigerator. On Nov. 22nd Mr. Kingery and Mr. Jennings put on a fine program dealing with "Automatic Voltage Regulators". This drifted into telephone operation which calls for a repeat for Pete who, will put on a program dealing with telephone operation. Nov. 29th another Quiz program was given by Mr. Caskey with very fine response by those who answered their numbers. (Shame on those who didn't). Remember, if you have an idea for a program, just see DNQ and he will quickly find a place for it.

PROGRAMS FOR THIS MONTH

BRING IN A NEW MEMBER

December 6th - Annual meeting. Election of officers, vote for your man. Directors meeting. Code equipment demonstration.

BRING IN A NEW MEMBER

December 13th - Mr. Vic. Maier, a director of the Link Observatory, will present an illustrated discussion on "Elementary Astronomy".

BRING IN A NEW MEMBER

December 20th - Business meeting. Directors meeting.

BRING IN A NEW MEMBER

December 27th - Pete Jennings will give his version of telephone operation. The sample was very good so this promises to be better by being enlarged. (Tiny Anderson please note)

NEW MEMBERS

Members added to the club roster the past month include the following: LeRoy Waggoner, W9YMV; Roland E. Pruitt, W9GOP ? Martin Gabriel, NC; Lonnie Webb, W9EJH; Eugene P. Sarazen, NC; Albert C. Carr Jr., W9LYW.

The AMACHEWER voices the club's approval and greetings to these new members of the organization. We even note that Lonnie had himself on a committee before or as soon as he had received his membership certificate. Keep it up EJH. LeRoy Waggoner on one of his rare "during the week" visits was heard to remark that he was going to try to get one ham a month to join the club. Follow the leader boys. Or better yet surpass him. These new members and we old ones as well should join in making our club bigger and better. Our president has, during the past year, done a fine job of enlarging and bettering our position. Let's stick with it and him. Let's go.

ACTIVITIES

BRING IN A NEW MEMBER

Let's all make it a point to talk up the club over the air. Ask that non-member ham to make application for membership into this old and progressive organization. For us to continue it is necessary that we stick together and raise our rolls. If you were at the meeting Nov. 29th (and if you weren't, where were you?) you would have seen the financial outlay necessary to keep our present location and services that we have at the present. All and all, it adds up to the fact that we must have more members or raise the dues. Let's keep the dues the same by lowering the percentage of amateurs who are not members of the Indianapolis Radio Club.

MAKE MARION COUNTY AMATEURS 100% INDIANAPOLIS RADIO CLUB INC.

What does the club offer?

A membership in the club offers opportunity for participation in all club activities, operation of two fine transmitters, a chance to meet other hams and discuss matters common to all. Educational programs, first hand information on ham engagements and operation. Our ARRL affiliation enables us to have dope soon after it originates. So let's all try to induct another fellow ham into our midst.

NEW CALLS

BRING IN A NEW MEMBER

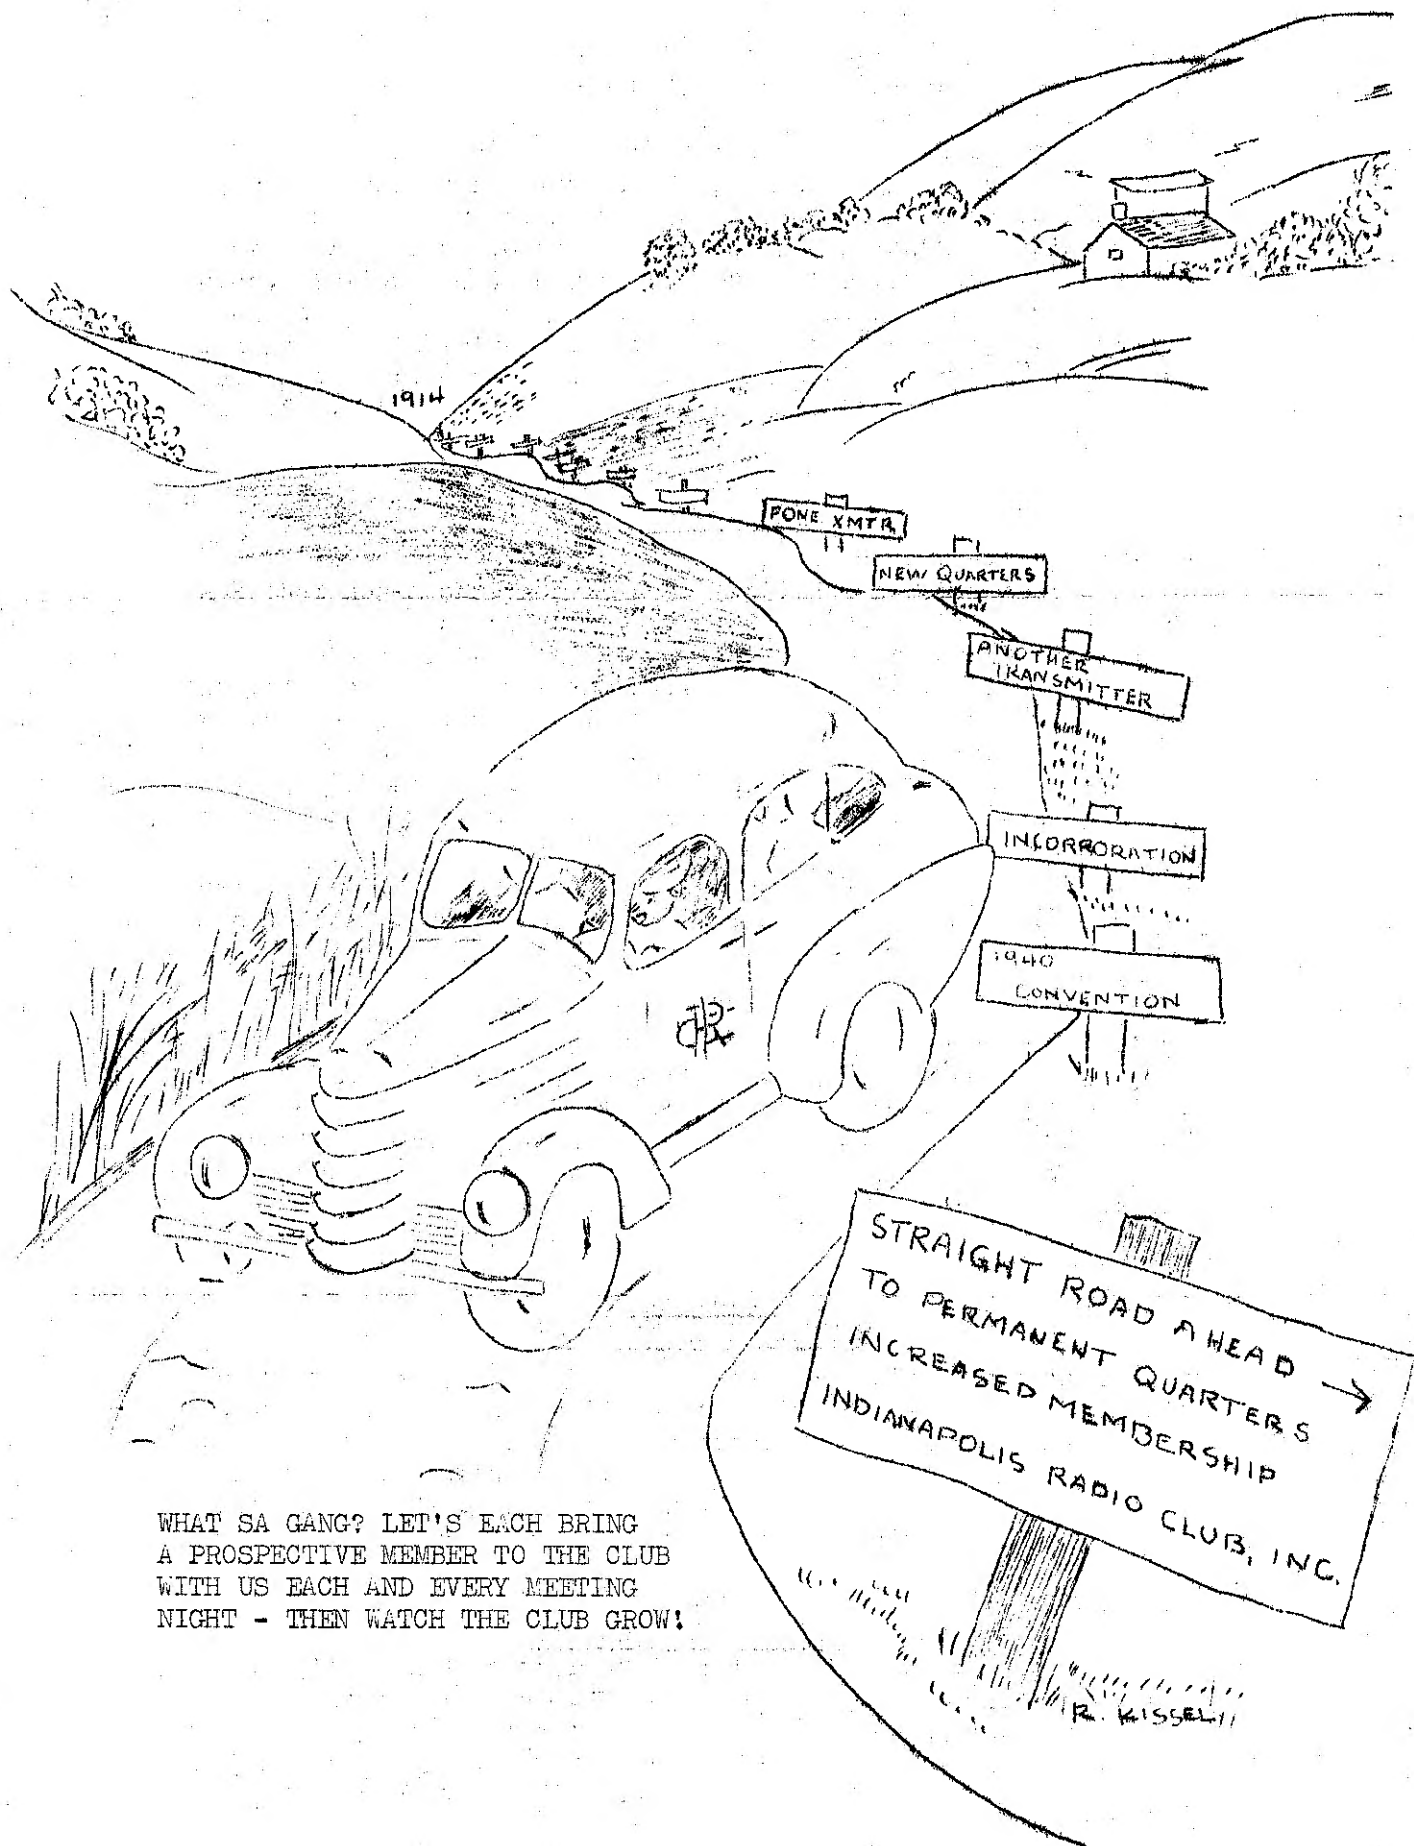

W9NYO was assigned to Charles Ankenbrock this past month. Bert Busey has changed his call so often in the week he has held it that it was necessary for the editor to telegraph the FCC to ascertain his lawful call. This will serve to notify Bert that it is W9NVD. What sa Bert?

Both of the above hams are members of the club.

DOINGS

BRING IN A NEW MEMBER

Nov. 29th marked another of those club feeds. Ice cream, pie and coffee was served by Lonnie Webb and Arnold Dickmeyer, the official committee for that date. Sure was swell. What are YOU doing??? Report YOUR activities to the secretary so that we can enlarge this column.

WHAT SA GANG? LET'S EACH BRING
A PROSPECTIVE MEMBER TO THE CLUB
WITH US EACH AND EVERY MEETING
NIGHT - THEN WATCH THE CLUB GROW!

We take this means of welcoming in the new members of the club. Dont recall all of thier names, and dont have time too look them up, as this rag is past due for the press now, anyway fellows keep your nose clean as Norris Knowsall^u as Stooges everywhere. (but too date have never reported anything)

Our once fertile brain is running very low on ideas for this column and it will very soon be a thing of the past unless more members will give the secretary of the club some items for this column. WE ARE CRYING FOR HELP.

Wonder how a meeting would be if all cross-talk would be eliminated from the meeting room during meetings? After all some members are interested in what the speaker is saying.

It has been rumored that the whiskers on YMV's are not the result of an election bet. But as the story goes, there is an opening for a stand-in for Orson Wells out Hollywood way, Good Luck Roy.

^u
Rudy Crandell again displayed unusall^u for^u when he made a very elaborate and eloquent speech on why Don Davis should be re-elected to the presidency of the club. It was a masterpiece, put out as only a Master could put it out. almost as good as the exploding coil.

Art Schultz NNX would make a very good editor for this paper he really knows some mighty fine and fittin words, but what do they mean Art.

Boy XYL's sure can murder radio terms, After spending a very busy week end at HNY'S place fighting Feed Back in a five meter rig VPN received a fone call from HNY's XYL saying that Charlie had finally gotten his back seat out. Better get it back in Charlie I heard that we are in for a cold snap.

GSX has changed his antenna no less than six time trying to work out of the city limits, when all he had too do was buy a new tube for the final.

QLW another Master is the proud father of a new Junior Operator Congrats Chas. XYL and youngun.

Another member of the club has received his call letters, Cant give you the call as we have only worked Bert three times and each time have heard a diffrent version of the letters DVN or is it NVD or maybe VND. Hey Chuck what is my call ?

You know what the June bug said after he hit the automobile windshield, quote " I'll never have guts enough too do that again"

The latest report that JJC had from the BCL was that he was 6'2" 200 lbs. red hair and a wild look. Better start feeding Alvey Raw Hamburger instead of the regular Meat Loaf Ester.

JPX is the proud owner of a new rig also a signal shifter and will be heard on 160 in the near future, Can you take it Arnold.

A new gavel was presented to our President. Better reconsider and throw your hat in the ring for re-election Don. It isn't every one that can swing a new club.,

W9ICY old Icy Al formerly of Indianapolis and still a member of the club, is now on the air from Anderson, Indiana, where he is now located. and as soon as he quits using HC's cloths line for an antenna and puts up a sky wire we hope too hear him here in Little Pittsburgh.

Prof. "Quiz" Caskey, conducted one of his programs at the club rooms last week. a swell and interesting time was had, but we believe some of the boys are still holding some of the numbers you called.

We cant say it as Flowery as a phone man, or as fast as a CW man But we do wish everyone a VERY MERRY XMAS AND HAPPY NEW YEAR., also hope that the man with the long white whiskers fills your sock to the brim with Radio Gear. (This is NOT a paid Ad.)

So until next year, Plenty of DX '73's es SK.

Norris Knowsail.

P.S. DONT FORGET THE CLUB ELECTION ON DECEMBER 6th. 1940
